FORWARD-LOOKING DISCLAIMER

Management's Discussion and Analysis ("MD&A") of the consolidated financial position and the results of operations of Plazacorp Retail Properties Ltd. (hereinafter referred to as "Plazacorp" or the "Company") for the nine months ended September 30, 2009 should be read in conjunction with the Company's Interim Consolidated Financial Statements and the notes thereto for the nine months ended September 30, 2009, along with the Consolidated Financial Statements and MD&A for the year ended December 31, 2008, including the section on "Risks and Uncertainties". Historical results, including trends which might appear, should not be taken as indicative of future operations or results.

Certain information contained in this MD&A contains forward-looking statements, based on the Company's estimates and assumptions, which are subject to risks and uncertainties. This may cause the actual results and performance of the Company to differ materially from the forward looking statements contained in this MD&A. Such factors include, but are not limited to, economic, capital market, and competitive real estate conditions. These forward-looking statements are made as of November 18, 2009 and Plazacorp assumes no obligation to update or revise them to reflect new events or circumstances, except for forward-looking information disclosed in a prior MD&A which, in light of intervening events, requires further explanation to avoid being misleading.

This MD&A has been reviewed and approved by management of the Company, and the Audit Committee on behalf of the Board of Directors.

EXPLANATION OF NON-GAAP MEASURES USED IN THIS DOCUMENT

Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) is not a Canadian Generally Accepted Accounting Principle (GAAP) financial measure and is presented as Management considers EBITDA to be one indicative measure of Plazacorp's operating performance. EBITDA should not be considered as an alternative to net income or any other operating or liquidity measure. EBITDA, as calculated by Plazacorp, may not be comparable to similarly titled measures reported by other entities. Due to the significance of Plazacorp's real estate assets and the contractual nature of Plazacorp's revenues, EBITDA can be used to measure Plazacorp's ability to service debt, and fund capital needs.

Management uses EBITDA to compute two ratios indicative of the financial strength of the Company.

1. Interest Coverage Ratio is defined as the multiple by which EBITDA exceeds interest costs which include amortization of finance costs.
2. Debt Service Coverage Ratio is defined as the multiple by which EBITDA exceeds the aggregate of interest costs plus periodic mortgage principal repayments.

Funds From Operations (FFO) is an industry measure and its calculation is prescribed in publications of the Real Property Association of Canada (REALpac). FFO as calculated by Plazacorp may not be comparable to similar titled measures reported by other entities. FFO is an industry standard for measuring operating results exclusive of amortization, future income taxes and gains or loss on property disposition. Plazacorp considers FFO a meaningful additional measure as it primarily rejects the assumption that the value of real estate investments diminish predictably over time.

Adjusted Funds From Operations (AFFO) is an industry measure which adjusts FFO for non-cash revenue, expenses and maintenance capital expenditures. Readers are advised that changes in operating factors which impact FFO and AFFO, with the principal exception of financing costs, directly affect EBITDA.

Property Net Operating Income (NOI) is an industry measure in widespread use. NOI as calculated by Plazacorp may not be comparable to similar titled measures reported by other entities. Plazacorp considers NOI a meaningful additional measure of operating performance of property assets, prior to financing considerations. Its calculation is total property revenue less total property operating costs, including operating ground rents. It is used primarily for performance comparison of assets held over the entire reporting period of the financial statements and this MD&A ("Same Asset NOI").

FFO, AFFO, and NOI are not defined by Canadian GAAP, and therefore should not be considered as alternatives to net income or cash flow from operating activities calculated in accordance with GAAP.

PART II PERFORMANCE SUMMARY

The key performance indicators discussed throughout the MD&A are summarized below. For a detailed explanation of the key performance indicators please refer to the appropriate section in this MD&A. Management believes that its key performance indicators allow it to track progress towards the achievement of Plazacorp's primary goal of providing a steady and increasing cash flow to our shareholders. The following chart discusses the key performances indicators for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008.

Funds From Operations	<ul style="list-style-type: none"> ➤ For the nine months ended September 30, 2009 FFO was \$10.1 million or 21.1¢ per share (21.0¢ diluted) compared to \$9.0 million or 19.4¢ per share (19.1¢ diluted) for the nine months ended September 30, 2008, a \$1.1 million increase on a dollar basis (11.8%) and an 8.8% increase on a per share basis. ➤ Incremental FFO of \$419 thousand from the 9 properties which transferred to IPP during 2008 and \$466 thousand from the 5 properties transferred to IPP in 2009, as well as \$538 thousand from growth in the same asset pool contributed positively to FFO. ➤ The sale of 75% of KGH Plaza, Robie Street Plaza, 681 Mountain Road and 201 Main Street in 2009 reduced FFO in Q3 2009, year to date, by \$340 compared to Q3 2008. ➤ The sale of 50% of Tacoma Center and Tacoma Shoppers in 2008 has reduced year to date FFO in 2009 by \$252 thousand compared to Q3 2008. ➤ The expansion at Les Promenades du Cuivre contributed an incremental FFO of \$228 thousand in 2009. ➤ Interest costs have decreased significantly over the prior year due to having the properties on the development lines during periods of restricted long-term debt availability, which has favourably impacted FFO.
Earnings Before Interest, Taxes, Depreciation and Amortization	<ul style="list-style-type: none"> ➤ For the nine months ended September 30, 2009 EBITDA was up \$639 thousand representing 3.1% growth over the nine months ended September 30, 2008. ➤ Full impact of earnings from the addition of 9 new properties through development during 2008 and 5 properties in 2009 which contributed \$789 thousand and \$873 thousand respectively. ➤ The sale of Tacoma Center and Tacoma Shoppers in 2008 resulted in a year to date decrease in EBITDA of \$444 thousand compared to Q3 2008. ➤ The sale of 75% of KGH Plaza, Robie Street Plaza, 681 Mountain Road and 201 Main Street in 2009 has a negative year to date effect on EBITDA of \$690 thousand compared to Q3 2008. ➤ The expansion at Les Promenades du Cuivre contributed an incremental EBITDA of \$228 thousand in 2009. ➤ EBITDA growth is consistent with expectations. The Debt Service ratios derived from EBITDA exceed the requirements under our borrowing arrangements.
Debt Service Ratios	<ul style="list-style-type: none"> ➤ For the nine months ended September 30, 2009 the Interest Coverage ratio was 2.0 times up 0.1 when compared to the nine months ended September 30, 2008 and the Debt Service Coverage ratio was 1.7 times, up 0.2 when compared to the nine months ended September 30, 2008. This increase was primarily due to lower float rate interest costs on properties included in income producing properties and financed through the development lines prior to refinancing.
Same-Asset Net Property Operating Income	<ul style="list-style-type: none"> ➤ For the nine months ended September 30, 2009 Same-Asset net property operating income excluding non-cash items was up by \$600 thousand (3.5%), over the nine months ended September 30, 2008.
Weighted Average Cost of Debt	<ul style="list-style-type: none"> ➤ As at September 30, 2009 the weighted average effective cost of mortgage debt increased 8 basis points to 6.50% from 6.42% compared to September 30, 2008 due to more stringent credit conditions on new financings.
Occupancy Levels	<ul style="list-style-type: none"> ➤ As at September 30, 2009 overall occupancy increased to 97.6% from 97.4% compared to September 30, 2008. This was primarily due to the lease up of space in one enclosed mall and in one strip plaza, along with the addition of three single use properties. Overall the portfolio occupancy is stable.

Adjusted Funds from Operations (AFFO)

Adjusted funds from operations removes non-cash revenues and expenses from FFO and deducts same asset pool maintenance capital expenditures to show funds available for distribution as dividends and to pay periodic mortgage repayments.

Maintenance capital expenditures include leasing commissions, tenant improvement costs and routine capital expenditures for properties in the same asset grouping. See page 25 for properties excluded from the same asset grouping and labeled as transactions.

➤ KEY PERFORMANCE INDICATOR

SAME-ASSET NET PROPERTY OPERATING INCOME

Same-asset categorization refers to those properties which were owned and operated by Plazacorp for the nine months ended September 30, 2009 and the entire year ended December 31, 2008 and excludes partial year results from assets included in the 2009 and 2008 transaction categories detailed on page 25 of this MD&A and properties under significant redevelopment during 2009 and 2008.

Total net property operating margin	63.1%	61.7%	59.0%	59.0%

Plazacorp Retail Properties Ltd.

As noted in the previous chart the net property operating income for the same asset pool is stable showing marginal growth of \$422 thousand year to date, due to high occupancy and the impact of straight line rent accounting. There were no significant operational issues within the same-asset pool for the nine months ending September 30, 2009. The variance in total net property operating income was attributable to:

- \$805 thousand increase in net property operating income from the 9 properties transferred to income producing in 2008 and \$849 thousand for the 5 properties transferred to income producing in 2009,
- decrease in net property operating income, period over period, due to the sale of 2 properties in 2008 which decreased NOI by \$493 thousand;
- the sale of a 75% interest in 4 properties in 2009 reduced NOI by \$654 thousand;
- the removal from consolidation of 6 Ontario properties in 2008 reduced NOI by \$508 thousand, and
- the expansion at Les Promenades du Cuivre contributed an incremental NOI of \$228 thousand in 2009.

See page 25 of this MD&A for the list of transactions in 2008 and 2009.

The lease up of the Les Promenades du Cuivre Shopping Centre, the Grand Falls Shopping Centre, Plaza Royale, Miramichi Plaza Phase 2, and Starrs Road Plaza were the main contributors to the \$215 thousand increase in same-asset net property operating and the \$525 thousand increase to total net property operating income during Q3 2009 over Q3 2008.

SAME-ASSET NET PROPERTY OPERATING INCOME EXCLUDING NON CASH REVENUE AND LAND RENT

GAAP requires that contractual rental revenue reported to be recorded on a straight-line basis over the term of the respective leases. As a result, growth in same-asset property operating income is derived primarily from changes in occupancy, cost containment and rental increases on lease renewal. Same-asset net property operating income year to date was up by \$600 thousand (3.5%) when the impact of non cash revenue is excluded. Same-asset net property operating income including the impact of non cash revenue is up \$422 thousand (2.3%) compared to the nine months ended September 30, 2008.

Due to the Company's use of land leases, operating margins excluding ground rent are more representative of industry norms and compare favorably with other public real estate entities specializing in retail shopping plazas. Net property operating margins are currently 59.0% (nine months ended September 30, 2008 – 59.0%). These margins increase to 63.9% (nine months ended September 30, 2008 – 63.7%) when the effect of land rent is excluded.

Significant portions of the Company's leases have common cost recoveries linked to the consumer price index (CPI) 54.8%. Certain anchor tenant leases may restrict recovery of common costs. As a result, certain costs such as snow removal and utility costs may not be completely offset by cost recoveries in a period, or recoveries revenue may exceed costs. Municipal taxes are generally net and fully recoverable from tenants. Most tenants in strip plazas and single-use properties are responsible for their own utilities, and therefore changes to these costs do not significantly impact on net property operating income. Significant fluctuations of the CPI index during 2008 and 2009 could restrict the growth or decrease CPI revenue during 2010 reducing the growth of same asset NOI. This condition related to CPI leases should correct through late 2010 and early 2011.

INVESTMENT INCOME

Investment income is made up of interest income (\$185 thousand), generated primarily from tenant loans, the income reported on an equity accounting basis for Centennial Plaza, Marche De L'Ouest, Place Du Marche, Plaza des Recollets and the Village Shopping Centre (\$755 thousand) and income reported on a cost basis from Northwest Plaza (\$39 thousand).

GAIN ON DISPOSALS OF INCOME PRODUCING PROPERTIES AND SURPLUS LANDS

For the nine months ended September 30, 2009 the company disposed of 75% interests in income producing properties in Moncton, NB, Sussex, NB, Miramichi, NB and Truro, NS resulting in an accounting gain of \$677 thousand. The company also disposed of surplus land during the nine months ended September 30, 2009 in St. Catharines, ON, Sussex, NB and Shediac, NB for an accounting loss of \$4 thousand.

Plazacorp Retail Properties Ltd.

CAPITAL TAXES

The Company records capital taxes at the statutory rates on the net equity base of the Company after exemptions. For the nine months ended September 30, 2009 the Company and its subsidiaries recorded \$109 thousand in capital taxes compared to \$220 thousand for the nine months ended September 30, 2008. Several governments have announced the repeal or phase-out of capital taxes over the next several years, favourably impacting current and future capital taxes to be incurred.

INCOME TAX EXPENSE

The financial statements include the current and future income taxes payable by consolidated subsidiaries. All current income taxes are those of subsidiaries. As a mutual fund corporation, the Company does not provide for current taxes on realized capital gains.

OUTLOOK

Our development and leasing efforts have produced a tenant profile of national retailers which contributes to cash flow stability. Performance to date has demonstrated the strength of current strategies and operating capabilities. Barring unforeseen events management is confident of delivering solid performance in 2009 as well as growth to the portfolio. The primary benefit to shareholders of the Company's performance and tenant profile is reliable cash flow and, over time, increasing dividends. Dividends to shareholders have been set at 18.5¢ per share for 2009 compared to 17.5¢ per share for 2008.

Plazacorp has built a portfolio with a high quality revenue stream. Plazacorp's ten largest tenants based upon current monthly gross rents as at September 30, 2009 represent approximately 52.2% of total revenues in place.

	% of Gross Revenue		% of Gross Revenue
1. Shoppers Drug Mart	25.6	6. Reitmans	2.3
2. Dollarama	6.7	7. Bulk Barn	2.2

4. Mark's Work Wearhouse	3.6	9. Michaels	1.6
5. Sobey's	2.3	10. Caisse Populaire	1.4

The company's mix of tenancy continues the trend towards primarily national tenants as a result of new developments. The portfolio is well positioned to resist downturns in our markets and provide stability to cash flows from which we fund operations and dividends.

OVERVIEW OF THE BUSINESS

Plazacorp was incorporated on February 2, 1999 and commenced trading on the TSX Venture Exchange (PLZ) on July 30, 1999. On December 11, 2002 after receipt of shareholder and regulatory approval, Plazacorp filed articles of amendment to convert to a mutual fund corporation and retains that status. Headquartered in Fredericton, New Brunswick, Plazacorp acquires, develops and redevelops retail real estate throughout Atlantic Canada, Quebec and Ontario. The Company's portfolio as at September 30, 2009 includes interests in 98 properties totaling over 4.4 million square feet and additional lands held for development. These include properties directly held by Plazacorp, its subsidiaries and through joint ventures. For 2009, and during 2008, Plazacorp's growth was primarily created through the development of new real estate assets. The Company as at September 30, 2009 has \$12.2 million committed to new development for 2009.

BUSINESS ENVIRONMENT

The principal regions in which we operate continue to exhibit stability in retailer demand for space and in consumer spending. Our strategy is to develop properties tenanted by national retailers, and more importantly retailers in the consumer staples market segment. Our execution of this strategy has produced a portfolio that is 88.4% occupied by national retailers. This significantly enhances the stability of the cash flow from our portfolio.

Yearly Dividend Growth

Year	2004	2005	2006	2007	2008	2009
Dividend per share	9.0¢	10.5¢	12.5¢	15.0¢	17.5¢	18.5¢
Percentage increase	12.5%	16.7%	19.0%	20.0%	16.7%	5.7%

The capital markets have been volatile. This has added challenges to the task of obtaining long-term mortgage capital. However, good projects can still be financed in this market. The credit markets now require higher lending spreads and offer lower loan-to-value ratios for real estate loans. Offsetting higher lending spreads are lower government bond yields, which produce overall mortgage rates that are still conducive to development and low by historic standards.

Our short-term development and operating facilities are stable and, to date, availability has not been adversely impacted by the capital markets. This stability is a direct result of the Company's track record for developing and financing its assets under a variety of market conditions. The management team continues to be focused on producing high-quality developments for the retailers who are our customers, but will also examine other real estate investment opportunities that will arise during this period of capital market distress.

STRATEGY

Plazacorp's principal goal is to deliver a reliable and growing yield to shareholders from a diversified portfolio of retail properties. To achieve this goal the Company's Board of Directors has set acquisition criteria for requiring a minimum of 16% leveraged returns after completion of development.

In order to remain successful, the Company must:

- maintain access to cost effective sources of debt and equity capital to finance the acquisition of new developments;
- acquire or develop properties at a price consistent with the Company's targeted returns on investment;
- maintain high occupancy rates on existing properties while sourcing tenants for properties under development and future acquisitions; and
- diligently manage costs and maintain quality of the properties.

The Company invests in the following property types:

- development of new properties on behalf of existing clients or in response to demand;
- redevelopment of well located but significantly amortized shopping malls and strip plazas; and
- strategic financial investments in existing properties that will provide stable recurring cash flows with opportunity for growth.

Management intends to achieve Plazacorp's goals by:

- acquiring or developing high quality properties with the potential for increases in future cash flows;
- focusing on property leasing, operations and delivering superior services to tenants;
- managing properties to maintain high occupancies;
- increasing rental rates when market conditions permit;
- managing debt to obtain both a low cost of debt and a staggered debt maturity profile;
- raising capital where required in the most cost effective manner; and
- periodic review of the portfolio to determine if opportunities exist to re-deploy equity from slow growth properties into higher growth investments.

KEY PERFORMANCE DRIVERS AND INDICATORS

There are numerous performance drivers, many beyond Management's control, that affect Plazacorp's ability to achieve its goals. These key drivers can be divided into internal and external factors.

Management believes that the key internal performance drivers are:

- Occupancy rates;
- Rental rates;
- Tenant service; and
- Maintaining competitive operating costs.

Management believes that the key external performance drivers are:

- The availability of new properties for acquisitions and developments;
- The availability of equity and debt capital; and
- A stable retail market.

The key performance indicators by which Management measures Plazacorp's performance are as follows:

- Funds From Operations (FFO);
- Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA);
- Debt Service Ratios;
- "Same-Asset" Net Property Operating Income;
- Weighted Average Effective Cost of Debt; and
- Occupancy Levels.

PART III

SUMMARY OF ANNUAL INFORMATION

Plazacorp's Summary of Selected Annual Information for the last three completed periods are presented below:

The summary of yearly results is influenced by significant acquisition, development and re-development activities over the three years and highlights the increasing total assets and revenues resulting from these activities. Similarly, mortgage and bank debt reflects financing activities relating to both asset additions and ongoing financing activities for the existing portfolio.

Fluctuations in income and assets are also caused by asset dispositions and the related gains or losses. The following gains on income producing properties and surplus land dispositions, before tax, are included in net income on the above chart: year ended December 31, 2008 - \$4.1 million; year ended December 31, 2007 - \$3.1 million; fourteen months ended December 31, 2006 - \$3.1 million.

Comparative figures are affected by changes in GAAP. The selected comparative information is as originally reported and has not been restated, except for funds from operations per share - basic and diluted which have been restated for changes in GAAP.

The summary of quarterly information highlights increasing gross revenues and net income. During the last eight quarters occupancy has been very steady which contributes to stability of cash flow. Seasonal fluctuations in income and funds from operations primarily relate to winter costs and yearly repair and maintenance activities which typically occur in spring and early summer. Leases tied to CPI cost recovery formula's (54.8%) and anchor tenant leases, may restrict Common Area Cost (CAM) recovery revenue in any given period creating variations in income and cash flow.

Fluctuations in income and assets are also caused by asset dispositions and the related gains or losses. The following gains (losses) on income producing properties and surplus land dispositions are included in net income on the above chart: Quarter 3 – 2009 (\$30) thousand; Quarter 2 – 2009 (\$19) thousand; Quarter 1 – 2009 \$722 thousand; Quarter 4 – 2008 - \$17 thousand; Quarter 3 – 2008 – \$4,176 thousand; Quarter 2 – 2008 – (\$80) thousand; Quarter 4 - 2007 – (\$549) thousand.

PART IV

OPERATING LIQUIDITY, WORKING CAPITAL AND FINANCING ACTIVITIES

Cash flow, in the form of recurring rent generated from the portfolio, represents the primary source of liquidity to service debt including recurring monthly amortization of mortgage debt, to pay operating, leasing, property tax costs, and to fund dividends. Costs of development activity are funded by a combination of debt, equity and cash flow.

Cash flow from operations is dependent upon occupancy levels of properties owned, rental rates achieved, effective collection of rents, and efficiencies in operations as well as other factors.

Plazacorp's cash distribution policy reflects repayment of recurring mortgage principal payments from cash flow in determining cash available for distribution. Accordingly, the overall debt level on existing properties is reduced year-over-year. The Company maintains cash flows from properties after debt repayment to ensure sufficient funds are available to pay anticipated dividends. New debt or equity capital raised is directed to continuing development activities, which are discretionary, based on the availability of such capital. During 2008 and early 2009 the Company took advantage of opportunities to enter joint ventures which raised capital through the partial sale of assets. Going forward the Company may examine other joint venture activities to raise capital and reduce risk on new developments.

The Company has an additional \$500 thousand letter-of-credit facility maturing September 30, 2010 with a Canadian Chartered Bank, secured by Personal Property Security Act (PPSA) charges in various provinces. This line was fully drawn as at September 30, 2009. A Company subsidiary also has a \$150 thousand unsecured operating line with a chartered bank upon which no funds were drawn as at September 30, 2009. As of September 30, 2009, all debt covenants in respect of the above facilities have been maintained.

Despite recent capital market volatility, the market for obtaining long-term mortgage funding for the Company's properties remains adequate. Management is confident that all short-term financings relating to the bank facilities maturing in 2009 and 2010 will be renewed or converted to long-term debt upon maturity on acceptable terms and conditions.

Plazacorp Retail Properties Ltd.

DEBENTURES AND MORTGAGE BONDS

The 8% subordinate debentures require the Company to maintain a debt service ratio based on EBITDA in excess of a fixed threshold. As of September 30, 2009, the ratio had been maintained.

\$1.185 million in Series V mortgage bonds were issued during Q2 09.

There were no redemptions of mortgage bonds during 2009. Series II mortgage bonds totaling \$10 million mature in 2010 and management is confident of refinancing these bonds. The Company is in compliance with the terms and covenants of its mortgage bonds indentures.

MORTGAGES

The Company has \$46.1 million of interim financing maturing at various times throughout 2009 and 2010. The lines maturing in 2010 are primarily development lines, renewed and extended in 2009 for one year. Long-term mortgages maturing during the remainder of 2009 total \$2.9 million. This consists of \$1.6 million of mortgages previously funded by a defeasance and \$1.3 million of other maturing long-term debt.

The Company's strategy is to balance maturities and terms on new fixed debt with existing debt maturities to minimize maturity exposure in any one year and to reduce overall interest costs. Maintaining or improving the average cost of debt will be dependent on capital market conditions at the time of refinancing. Plazacorp's debt strategy involves maximizing the term of long-term debt available based on the tenant profiles for the assets being financed, at current market rates, in order to stabilize cash flow available for reinvestment and dividend payments.

The Company's use of floating rate debt has generally been limited to assets under development or redevelopment. Fixed rate debt represents 95% of mortgages placed on income producing properties and float rate debt is restricted to assets under development and IPP under redevelopment. Management is of the view that such a strategy results in the most conservative interest rate risk management practice. Current market parameters for conventional mortgage debt are in the range of 60% - 65% of the appraised market value of the underlying property. The success of this mortgage strategy is dependant upon debt market parameters, and the particular features and quality of the underlying assets being financed in the period.

➤ **KEY PERFORMANCE INDICATOR**

At September 30, 2009 and September 30, 2008, the Company's cost of debt was as follows:

(000's) As at	Balance Outstanding	Effective Rates September 30, 2009	Effective Rates September 30, 2008
Fixed rate mortgage loans	\$ 173,380	6.50%	6.42 %
Other fixed rate loans with periodic repayments	\$ 1,358	10.00%	10.00 %

Bank development facility	\$ 5,937	Prime + 2%	-
Bank development facility	\$ 7,193	Prime + 2%	-

The weighted average effective cost of fixed rate mortgage loans as at September 30, 2009 is 6.50% compared to 6.42% as at September 30, 2008. The weighted average term to maturity for the long-term mortgages is 6.4 years. The average remaining repayment (amortization) period on long-term mortgage debt is 23.8 years.

Plazacorp Retail Properties Ltd.

LAND LEASES

Return on invested cash or equity is a measure Plazacorp uses to evaluate development and strategic acquisitions. Investing in a project subject to a land lease reduces the cash equity required for an individual project and increases the number of projects which can be undertaken with available capital. This spreads risk and enhances overall shareholder return. In some instances use of a land lease will enhance project feasibility where a project might not be undertaken without use of a land lease.

Currently Plazacorp has 24 long-term land leases with total annual rent of \$2.6 million.

COMMITMENTS AND CONTINGENT LIABILITIES

The Company is committed for future periods to \$12.2 million in respect of acquisitions, developments and redevelopments. Management believes that Plazacorp has sufficient unused bank line availability, and mortgage bond deployment potential, to fund these commitments.

Plazacorp's future contractual commitments, and the estimated timing of these commitments, without adjustment for deferred financing charges deducted under GAAP, are outlined below:

(000's)	Total	Payments Due By Year				
		Remainder 2009	Year 1 2010	Years 2-3 2011-2012	Years 4-5 2013-2014	After 5 years

Total contractual obligations	\$ 411,711	\$ 34,094	\$ 51,865	\$ 45,090	\$ 55,771	\$ 224,891

(1) Mortgages maturing but secured by bond investments, see note 12 of the Interim Consolidated Statements.

(2) Operating land leases expire on dates ranging from 2011 to 2070 with renewal options ranging from 10 to 60 years.

The Company also has a contingent liability as original borrower on mortgages assumed by the purchaser of two properties in March 2007. These commitments are subject to indemnity agreements. The estimated balance outstanding on these loans is \$15.1 million and \$8.6 million as at September 30, 2009. This sale did not relieve the Company's obligations as original borrower in respect of these mortgages, see note 26c of the September 30, 2009 Interim Consolidated Financial Statements. Average remaining term of these mortgages is 3.0 years (September 30, 2008 –4.0 years) and 11.7 years, respectively.

The Company guarantees mortgage debt in excess of its pro-rata position in joint ventures and non-consolidated subsidiaries in the amount of \$701 thousand, see note 26c of the September 30, 2009 Interim Consolidated Financial Statements.

The Company assumed a guarantee for a \$22.3 million development line-of-credit held by the Village Shopping Centre Limited Partnership. This guarantee is limited to costs for the completion of construction. As at September 30, 2009 the remaining budgeted development costs are \$3.4 million and the Company's current exposure under this guarantee is estimated to be \$850 thousand.

PART V

RISKS AND UNCERTAINTIES

All property investments are subject to a degree of risk and uncertainty. Property investments are affected by various factors including general economic conditions and local market circumstances. Local business conditions such as oversupply of space or a reduction in demand particularly affect property investments. Management attempts to manage these risks through geographic and asset class diversification in the portfolio. At September 30, 2009, the Company held interests in 98 properties spread geographically among six provinces in Canada. See Financial Risk Management, note 27, to the Interim Consolidated Financial Statements.

INTEREST RATE, FINANCING AND REFINANCING RISK

Management attempts to lock in cash returns on assets for the longest period consistent with exposure to debt maturing and leases expiring in any given year.

Current debt market volatility has made conditions very challenging for obtaining long-term mortgage financing. The Company has experienced increased lending spreads and tightening of other lending conditions on financings undertaken in 2008 and 2009. The Company's interest cost on short-term development financing has also increased.

At existing financing rates, the Company is able to obtain positive returns from debt financing. The quality of our projects makes management confident of obtaining suitable long-term financing for those projects on completion of development as well as the maturity of existing debt. Refinancing debt at maturity with conventional financing is currently limited to 60%-65% of appraised value. The Company has an ongoing requirement to access the debt markets and there is a risk that lenders will not refinance such maturing debt on terms and conditions acceptable to the Company or on any terms at all. Management remains confident that all debts maturing in 2009 and 2010 will be financed or refinanced as they come due.

CREDIT RISK

Credit risk arises from the possibility that tenants may be unable to fulfill their lease commitments. Management mitigates this risk by ensuring that Plazacorp's tenant mix is diversified and heavily weighed to national tenants and by ensuring any large individual revenue exposures are to tenants of significant credit worthiness. Plazacorp also maintains a portfolio that is diversified geographically so that exposure to local business is lessened.

Currently one tenant, Shoppers Drug Mart, represents 25.6% of current monthly gross rents in place. The top 10 tenants collectively represent approximately 52.2% of total revenues in place.

LEASE ROLL-OVER RISK

Lease roll-over risk arises from the possibility that Plazacorp may experience difficulty renewing leases as they expire or in releasing space vacated by tenants.

During 2009, management completed 298 thousand square feet (2008 – 467 thousand square feet) of new leasing deals at market rates. The 298 thousand square feet of new leasing was comprised of 165 thousand square feet on new developments and acquisitions, and 133 thousand square feet on same-asset properties. For the remainder of 2009 there are 28 thousand square feet in lease expiries remaining to be leased.

Management attempts to stagger the lease expiry profile so that Plazacorp is not faced with a disproportionate amount of square footage of leases expiring in any one year. Management further mitigates this risk by maintaining a diversified portfolio mix both by asset type and geographic location and ensuring that the property manager maintains a well staffed and highly skilled leasing department to deal with all leasing issues.

OCCUPANCY RISK

One of Plazacorp's performance drivers is related to occupancy levels. The majority of Plazacorp's leases in place are referred to as net leases, meaning tenants reimburse Plazacorp for their share of property operating costs (subject to consumer

Plazacorp Retail Properties Ltd.

price index adjustments in many cases) and realty taxes. Many of Plazacorp's operating costs and tax expenses are not reduced by vacancy. Certain costs such as utilities and janitorial costs would not decline with occupancy.

The hypothetical impact to net property operating income of a change in occupancy of 1% would be approximately \$492 thousand per annum. The analysis does not identify a particular cause of such changing occupancy and as a result, it does not reflect the actions management may take in relation to the changes.

➤ **KEY PERFORMANCE INDICATOR**

- Occupancy in the strip plazas was 97.2% as at September 30, 2009, compared to 97.5% as at September 30, 2008.
- Average occupancy for enclosed malls was 97.3% as at September 30, 2009, compared to 95.4% as at September 30, 2008.
- Occupancy for single use assets remained stable at 100%.
- Pre-leased space in properties under development is 76.3%.
- Overall the portfolio occupancy, excluding non-consolidated trusts and partnerships and properties under development as at September 30, 2009 was 97.6%, up 0.2% from September 30, 2008.

These occupancy rates are within management's expectations in view of continuing development in the portfolio, the occupancy rates and lease-up of properties transferred to income producing status over the last year, and the quality of the tenant base.

DEVELOPMENT AND ACQUISITIONS RISK

Plazacorp's external growth prospects will depend in large part on identifying suitable development, redevelopment, and acquisition opportunities, pursuing such opportunities, conducting necessary due diligence, consummating acquisitions (including obtaining necessary consents) and effectively operating the retail facilities acquired by the Company. If Plazacorp is unable to manage its growth and integrate its acquisitions effectively, its business, operating results and financial condition could be adversely affected. Developments and acquisitions may not meet operational or financial expectations due to unexpected costs or market conditions, which could impact the Company's performance.

ENVIRONMENTAL RISK

Plazacorp is subject to various laws relating to the environment which deal primarily with the costs of removal and remediation of hazardous substances such as asbestos or petroleum products. Environmental risk is relevant to Plazacorp's ability to sell or finance affected assets and could potentially result in liabilities for the costs of removal and remediation of hazardous substances or claims against Plazacorp. Management is not aware of any material non-compliance with environmental laws or regulations with regard to Plazacorp's portfolio, or of any pending or threatening actions, investigations or claims against Plazacorp relating to environmental matters. Plazacorp manages environmental exposures in a proactive manner during every aspect of the property life cycle including extensive due diligence in respect of environment risk before purchase.

LITIGATION RISK

In Management's opinion, any liability that may arise from current or pending litigation would not have a material adverse effect on these financial statements.

TC Land LP, a wholly owned subsidiary of TC Land REIT, an entity controlled by Michael Zakuta and Earl Brewer, leases nine parcels of land to Plazacorp at a total annual rent of \$875 thousand. The land leases expire at various times from October 2043 to March 2047, subject to options to renew or purchase. The business purpose of the leases is to enhance levered equity returns on the affected development assets.

For the nine months ended September 30, 2009 the Company expensed \$86 thousand (for the year ended December 31, 2008 - \$79 thousand) in related party interest.

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

Management maintains appropriate information systems, procedures and controls to ensure that information that is publicly disclosed is complete, reliable and timely. Management is also responsible for establishing adequate internal controls over financial reporting to provide sufficient knowledge to support the representations made in this MD&A, the Interim Consolidated Financial Statements for September 30, 2009 and all related public filings.

In contrast to the certificate required under Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings* (MI 52-109), the Venture Issuer Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as defined in MI 52-109. In particular, the certifying officers filing certificates for venture issuers are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.

The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in their certificate(s).

Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis DC&P and ICFR as defined in MI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

CRITICAL ACCOUNTING POLICIES

CRITICAL ACCOUNTING ESTIMATES

Plazacorp's significant accounting policies are described in the Consolidated Financial Statements. Management chooses the accounting policies and estimates that it believes are appropriate to fairly report the Company's operating results and financial position. Management regularly assesses its critical accounting estimates in light of current and forecasted economic conditions and reviews these estimates with its Audit Committee. The following outlines the more significant judgments and estimates used in the preparation of the financial statements:

Plazacorp Retail Properties Ltd.

PROPERTIES UNDER DEVELOPMENT

Pre-construction costs of the property, development costs, construction costs, carrying costs including financing fees, interest costs, real estate taxes and other costs incurred while a property is under development or significant re-development are capitalized. Once a property generates revenue the interest and net operating loss are capitalized until the earlier of 90% occupancy, six months after substantial completion of construction or the date the property becomes profitable. Once a property under development achieves the aforementioned threshold it is moved to income producing properties.

PROPERTY ACQUISITIONS

Management is required to allocate the purchase price to acquired tangible and intangible assets and in-place leases. The allocation may change as new information emerges on the appropriateness of estimates made during 2008 and 2009. This estimate is critical insofar as it may impact the corresponding amortization period of the related assets and net income.

ASSET VALUE IMPAIRMENT

Income producing properties are carried at cost. If events or circumstances indicate that the carrying value of the income producing properties may be impaired, a recoverability analysis is performed based upon estimated undiscounted cash flows generated from the income producing properties. If the analysis indicates that the carrying value is not recoverable from future cash flows, the income producing properties are written down to estimated fair value and an impairment loss is recognized. The estimate is critical insofar as it may impact on the classification and book value of income producing properties held and net income should impairment be present.

FINANCIAL INSTRUMENTS

The Company reviews all significant contracts to determine if they contain embedded derivatives pursuant to the provisions of CICA Handbook Section 3855. As at September 30, 2009 there are no embedded derivatives in the Company's financial instruments that require separation and measurement.

VARIABLE INTEREST ENTITIES

The Company evaluates all joint-venture relationships and partial ownership interests to determine whether or not they are subject to the variable interest entity guidelines as directed by AcG-15 in respect of applying consolidation, equity accounting, joint-venture accounting or cost accounting. The Company has consolidated SDM - Ontario 1 Limited Partnership (Bancroft, Alexandria, and Almonte) and Shediac Limited Partnership as the guidelines for classification of a variable interest entity have been met. There are no other significant changes required to the financial statement presentation of its consolidated subsidiaries, proportionately consolidated joint ventures or investments in non-consolidated partnerships and trusts as at September 30, 2009 compared to December 31, 2008.

Readers should refer to the September 30, 2009 Interim Consolidated Financial Statements and the December 31, 2008 Consolidated Financial Statements for a full description of the Company's accounting policies.

CHANGES TO ACCOUNTING POLICIES

Goodwill and Intangible Assets

On January 31, 2008, the CICA issued a new accounting standard: Handbook Section 3064 *Goodwill and Intangible Assets*. Section 3064 will replace Handbook Section 3062 *Goodwill and Other Intangible Assets* and Handbook Section 3450 *Research and Development Costs*. Section 3064 establishes standards for the recognition, measurement and disclosure of goodwill and intangible assets. The new standards were effective January 1, 2009 and had no effect on the financial results of the company.

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts, has been amended and is effective for the year ending December 31, 2009. The Company will no longer be able to defer expenditures recoverable from tenants in the period in

Plazacorp Retail Properties Ltd.

which they are incurred, unless they meet the criteria for an asset. The Company has applied this standard to the interim consolidated financial statements and the amended standard requires restatement of the prior period. The impact to the total assets in the December 31, 2008 consolidated balance sheet is a decrease of \$118 thousand. The opening deficit for 2008 was restated by \$64 thousand due to the change in accounting policy.

Credit Risk and the Fair Value of Financial Assets and Financial Liabilities – EIC 173

On January 20, 2009 the CICA issued EIC 173, Credit risk and the fair value of financial assets and financial liabilities, which requires an entity to take into account their own credit risk and the credit risk of their counterparty when determining the fair value of financial assets and financial liabilities. This applies to all financial assets and liabilities measured at fair value in interim and annual financial statements for periods ending on or after January 20, 2009. The adoption of EIC 173 did not have an impact on the Company's financial statements.

FUTURE ACCOUNTING POLICY CHANGES

International Financial Reporting Standards

In February 2008, the Canadian Accounting Standards Board confirmed that publicly accountable enterprises will be required to report under International Financial Reporting Standards (IFRS) for interim and annual financial statements for fiscal years beginning on or after January 1, 2011. The conversion from Canadian GAAP to IFRS will be effective for the first quarter filing for the period ending March 31, 2011 and it will include comparatives for the first quarter of 2010.

The implementation will follow a four step phased approach. In the Awareness and Assessment phase an understanding of the complexity of the conversion process has been completed and a conversion plan has been developed that has determined the priorities and timeline. Plazacorp, with the assistance of its external advisors, have commenced the process to transition from current GAAP to IFRS.

A high level review of the differences between GAAP and IFRS has been completed. The standards expected to have the greatest impact to Plazacorp include IAS 40 – investment property and the applicable standards for consolidations, investments in associates and joint ventures; IAS 27, 28, and 31. The Company continues to work on the detailed analysis of the differences between GAAP and IFRS to obtain a full understanding of the impact to the Company and to determine the process changes required for implementation. The substantial completion of this phase is expected by Q4 2009.

The design and implementation phases, along with the accounting policy choices, will be completed during Q4 2009 and during 2010. Implementing IFRS will have an impact on the accounting, financial reporting, supporting processes, and potentially the contractual commitments involving GAAP based clauses such as debt covenants. The implementation plan ensures proper training to individuals who are impacted by these changes, increasing awareness and knowledge to management, the Board of Directors, and Audit Committee, and a review of relevant contracts and awareness to ensure compliance.

Plazacorp is continually assessing the impact of the transition to IFRS and is reviewing all of the proposed and ongoing changes to the International Accounting Standards to determine their impact on the Company. Accordingly, the Company can not, at this time, quantify the impact that the adoption of IFRS will have on the consolidated financial statements. The current GAAP consolidated financial statements may be significantly different when presented in accordance with IFRS.

The critical choices for the Company rest with the choices surrounding fair value accounting, the related impact on joint venture accounting and to a lesser extent consolidation.

Investment Property

Investment properties, under IFRS, are defined as properties that are held to earn rentals or for capital appreciation, or both. Under IFRS it is expected the Company's income properties and properties under development will be categorized as investment property. Similar to Canadian GAAP, under IFRS, investment property is initially recognized at cost. Subsequent to initial recognition IFRS requires that an entity accounts for investment property using either the cost or fair value model. The Company continues to analyze these options to determine which method will be adopted.

Plazacorp Retail Properties Ltd.

IFRS 1 allows an entity, at the date of transition to IFRS, to revalue investment property at fair value and deem this amount as cost going forward, if the entity chooses the cost model. It is also allowable, under IFRS, for an entity to maintain historical cost and continue to use the cost model. The cost model is generally consistent with Canadian GAAP. The investment properties are carried at cost less accumulated depreciation on the balance sheet. If the cost model is chosen the fair value will be disclosed in the notes to the consolidated financial statements.

If the fair value method is chosen the investment properties will be carried at the fair value on the balance sheet and changes to the fair value for each period will be recorded in the consolidated statement of earnings.

Basis of Consolidation

The current exposure draft for the new International Accounting Standard (IAS) on joint ventures proposes to eliminate the option for proportionate consolidation of joint ventures. Under Canadian GAAP joint ventures can be consolidated using either the proportionate consolidation method or the equity method. The release and effective date for this Standard has been delayed and is not anticipated to be effective until 2012. Management will continue to assess this Standard when it is released.

Under Accounting Guideline 15 – Consolidation of Variable Interest Entities, the Company currently evaluates each of its joint ventures and partnership arrangements to determine whether the Company is at risk for the majority of losses or is entitled to a majority of the benefits from the entity. If the Company determines the classification for a variable interest entity is met then the entity is consolidated based on the Guideline. Under IFRS the concept of a variable interest entity does not exist, however IFRS 3 – Business Combinations and SIC 12 – Consolidation of Special Purpose Entities are being reviewed to ensure these entities will not require consolidation under IFRS.

Business Combinations and Consolidated Financial Statements

The CICA issued new accounting standards on January 1, 2009: Handbook Section 1582 Business Combinations, Handbook Section 1601 Consolidated Financial Statements, and Handbook Section 1602 Non-Controlling Interests and these standards replace the existing guidance found in Sections 1581, Business Combinations and 1600, Consolidated Financial Statements. These new standards were developed in conjunction with the US Financial Accounting Standards Board and the International Accounting Standards Board, to bring the Canadian standards in harmony with the US and International Standards. The new standards are to be applied prospectively for fiscal years beginning on or after January 1, 2011. Earlier adoption of these Sections is permitted at the beginning of a fiscal year. The Company is currently in the process of evaluating the potential impact of these new standards on the consolidated financial statements and determining if early adoption is advantageous.

Financial Instruments – Disclosures – Section 3862

The CICA amended Handbook Section 3862, Financial Instruments – Disclosures in June 2009. Annual financial statements for fiscal years ending after September 30, 2009 require new disclosure for fair value measurement for financial instruments and on liquidity risk disclosures. The amendment requires classification of fair value measurements using a fair value hierarchy that exhibits the significance of the inputs used in making the measurements. The Company is currently in the process of evaluating the disclosure requirements of these amendments however they are not anticipated to have a significant impact. These standards will not be adopted early.

Notes to the Interim Consolidated Statements
For the Periods Ended September 30, 2009 (unaudited) and December 31, 2008
(In thousands of Canadian dollars, except per share amounts)

1. Nature of Operations

The Company operates a retail real estate ownership and development business in Ontario, Quebec, and the Atlantic Provinces. The Company was incorporated under the New Brunswick Business Corporations Act on February 2, 1999. On December 11, 2002 the Company amended its articles of incorporation to become a Mutual Fund Corporation as defined in the Income Tax Act of Canada.

2. Basis of Presentation

The Company's accounting policies and its standards of financial disclosure are in accordance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Canadian Institute of Chartered Accountants (CICA), the more significant policies of which are described below.

a) *Interim Financial Statements*

In the opinion of the Company the accompanying interim consolidated financial statements contain all the adjustments necessary to present fairly the financial position as at September 30, 2009 and December 31, 2008, and the results of operations and the changes in cash flows for the nine months ended September 30, 2009 and September 30, 2008. While the Company believes that disclosures presented are adequate to make the information not misleading, it is suggested that these financial statements be read in conjunction with the audited financial statements and notes included in the Company's Annual Report for the fiscal year ended December 31, 2008.

The results of operations for the nine months ended September 30, 2009 are not necessarily indicative of the results for the full year and are influenced by seasonal cost variances on properties with fixed common cost recovery formulas. The term "period" or "in the period" when used herein means the nine month period then ended.

b) *Changes in Accounting Policies*

Goodwill and Intangible Assets

On January 31, 2008, the CICA issued a new accounting standard: Handbook Section 3064 *Goodwill and Intangible Assets*, which was effective January 1, 2009. Section 3064 replaced Handbook Section 3062 *Goodwill and Other Intangible Assets* and Handbook Section 3450 *Research and Development Costs*. Section 3064 establishes standards for the recognition, measurement and disclosure of goodwill and intangible assets. The Company has applied this standard to the consolidated financial statements and there is no impact compared to prior periods.

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts, has been amended and is effective for the year ending December 31, 2009. The Company no longer defers expenditures recoverable from tenants in the period in which they are incurred, unless they meet the criteria for an asset. The Company has applied this standard to the interim consolidated financial statements and the amended standard requires restatement of the prior period. The impact to the total assets in the December 31, 2008 consolidated balance sheet is a decrease of \$118 thousand. The opening deficit for 2008 was increased by \$64 thousand due to the change in accounting policy.

Credit Risk and the Fair Value of Financial Assets and Financial Liabilities – EIC 173

On January 20, 2009 the CICA issued EIC 173, Credit risk and the fair value of financial assets and financial liabilities, which requires an entity to take into account their own credit risk and the credit risk of their counterparty when determining the fair value of financial assets and financial liabilities. This applies to all financial assets and liabilities measured at fair value in interim and annual financial statements for periods ending on or after January 20, 2009. The adoption of EIC 173 did not have an impact on the Company's financial statements.

Plazacorp Retail Properties Ltd.
Notes to the Interim Consolidated Statements
For the Periods Ended September 30, 2009 (unaudited) and December 31, 2008
(In thousands of Canadian dollars, except per share amounts)

c) *Principles of Consolidation*

The interim consolidated financial statements include the accounts of Plazacorp Retail Properties Ltd., its subsidiaries and its proportionate interest in joint ventures in accordance with the pronouncements of CICA Handbook Sections 1590, 1600, 3051, 3055 and the provisions of Accounting Guideline #15 (Consolidation of Variable Interest Entities). For investment entities where the Company has joint ownership and control for accounting purposes, a proportionate share of the assets, liabilities, and operating results are included in the consolidated financial statements. When the Company exercises significant influence, investments are accounted for using the equity method. Entities over which the Company does not exercise significant influence are accounting for using the cost method.

d) *Variable Interest Entities ("VIE")*

Under Accounting Guideline-15 the Company evaluates each of its joint ventures and partnership arrangements to determine whether the company is at risk for the majority of losses from the entity or is entitled to a majority of the benefits from the entity. As a result of this analysis the Company has consolidated SDM - Ontario 1 Limited Partnership (Bancroft, Alexandria, and Almonte) and Shediak Limited Partnership as the guidelines for classification of a variable interest entity have been met. There are no other significant changes required to the financial statement presentation of its consolidated subsidiaries, proportionately consolidated joint ventures or investments in non-consolidated partnerships and trusts as at September 30, 2009 compared to December 31, 2008.

e) *Use of Estimates*

The preparation of the Company's financial statements in conformity with Canadian Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the reporting year. Actual results could differ from such estimates. The significant areas of estimation include impairment of assets, impairment of goodwill, capitalization of interest to properties under development, useful lives of assets to calculate amortization and allocation of the purchase price on property acquisition.

f) *Cash and Cash Equivalents*

Cash and cash equivalents represent cash in bank accounts and short-term deposits where the deposit could be turned into cash within three months of acquisition. The company's cash balance does not include any instruments related to asset-backed securities or commercial paper programs.

g) *Future Accounting Policy Changes*

International Financial Reporting Standards

In February 2008, the Canadian Accounting Standards Board confirmed that publicly accountable enterprises will be required to report under International Financial Reporting Standards (IFRS) for interim and annual financial statements for fiscal years beginning on or after January 1, 2011. The conversion from Canadian GAAP to IFRS will be effective for the first quarter filing for the period ending March 31, 2011 and it will include comparatives for the first quarter of 2010. The Company is currently in the process of evaluating the potential impact of these new standards on the consolidated financial statements.

Business Combinations and Consolidated Financial Statements

The CICA issued new accounting standards on January 1, 2009: Handbook Section 1582 Business Combinations, Handbook Section 1601 Consolidated Financial Statements, and Handbook Section 1602 Non-Controlling Interests and these standards replace the existing guidance found in Sections 1581, Business Combinations and 1600, Consolidated Financial Statements. These new standards were developed in conjunction with the US Financial Accounting Standards Board and the International Accounting Standards Board, to bring the Canadian standards in harmony with the US and International Standards. The new standards are to be applied prospectively for fiscal years beginning on or after January 1, 2011. Early adoption is permitted at the beginning of a fiscal year. The Company is currently in the process of evaluating the potential impact of these new standards on the consolidated financial statements and determining if early adoption is advantageous.

Financial Instruments – Disclosures – Section 3862

The CICA amended Handbook Section 3862, Financial Instruments – Disclosures in June 2009. Annual financial statements for fiscal years ending after September 30, 2009 require new disclosure for fair value measurement for financial instruments and on liquidity risk disclosures. The amendment requires classification of fair value measurements using a fair value hierarchy that exhibits the significance of the inputs used in making the measurements. The Company is currently in the process of evaluating the disclosure requirements of these amendments however they are not anticipated to have a significant impact. These standards will not be adopted early.

For the nine months ended September 30, 2009 the Company expensed \$86 thousand (for the year ended December 31, 2008 - \$79 thousand) in related party interest.

18. Bank Indebtedness

The Company has a \$7.3 million operating line of credit facility with a Canadian chartered bank at the rate of prime plus 0.75%, maturing November 30, 2009. As security the Company has provided a \$10 million demand debenture secured by a first mortgage over 3 properties.

19. Income Taxes

As a mutual fund corporation, the Company is entitled to a refund of income taxes paid in respect of realized qualifying capital gains upon payment of sufficient dividends to residents of Canada to affect a refund.

As at December 31, 2008 the Company and its consolidated subsidiaries had income tax loss carry-forwards in the amount of \$15.4 million, expiring in various years from 2009 to 2028.

The income tax benefit of these losses has been recognized in the financial statements by reducing the future income tax liability arising from the difference between the tax and book values of income producing properties and other assets.

The Company has earned \$319 thousand in refundable capital gains tax in 2009 and triggered refunds of \$299 thousand from the payment of capital gains dividends. As at September 30, 2009, the Company has a refundable capital gains balance of \$20 thousand (December 31, 2008 - \$196 thousand).

Common shares outstanding, end of the year	48,409	\$ 42,306	47,303	\$ 40,031

The Company is a mutual fund corporation as defined in the Income Tax Act (Canada) and as such shareholders have the right to redeem their common shares at 90% of the lesser of the Market Price of the share (Market Price is defined as the weighted average trading price of the previous 180 trading days) and the most recent Closing Market Price at the time of the redemption. The redemption price may be satisfied by either cash or a note payable bearing interest at a rate equal to the prescribed rate of interest calculated pursuant to paragraph 4301c of regulations under the Income Tax Act (Canada) in effect at the time of its issue, and will mature and be fully repaid two years after issuance. The notes may also be prepaid without penalty. As at September 30, 2009 no shareholder had redeemed shares under the mutual fund corporation provisions.

Pursuant to the Company's Dividend Reinvestment Plan, during the nine months ended September 30, 2009 shareholders were issued 594 thousand shares at a weighted average price of \$2.39 per share (for the year ended December 31, 2008 – 432 thousand shares at a weighted average of \$3.23 per share).

c) *Earnings per Share*

Basic earnings per share are calculated based on the weighted average number of shares outstanding for the period. Diluted earnings per share consider the potential exercise of outstanding stock options, as well as the potential conversion of convertible debentures that have a dilutive effect on earnings per share. Stock options or convertible debentures that do not reduce earnings per share are anti-dilutive, and are excluded from the dilution per share calculation. As at September 30, 2009 Series IV debentures totalling \$5.0 million which equates to 1.25 million shares were anti-dilutive as were Series IV and Series V stock options (December 31, 2008 \$5.0 million in debentures which equates to 1.25 million shares were anti-dilutive).

24. Related Party Transactions

Effective March 30, 2009 a new five year management agreement commenced between Plaza Group Management Limited and Plazacorp. Under this agreement, Plaza Group Management Limited provides property management and corporate management services to Plazacorp. In Quebec, staff of Les Immeubles Plaza Z-Corp Inc. handle management duties under contract with Plazacorp.

Plaza Group Management Limited is controlled by two directors of Plazacorp, namely Michael Zakuta and Earl Brewer. Mr. Brewer is Chairman of the Board of Plazacorp, Michael Zakuta is President and Chief Executive Officer of the Company. Les Immeubles Plaza Z-Corp Inc. is effectively controlled by Michael Zakuta.

Mr. Brewer and Mr. Zakuta did not receive any direct compensation from the Company for performing their duties as Chairman and President, respectively or as directors, during 2009 and 2008.

The purpose of the management arrangement is to provide the Company the services of a fully staffed and professional management company in all geographic areas which allows Plazacorp access to significant professional management services at reasonable costs. The basis of fee payment under the new management agreement, effective March 30, 2009, is as follows:

Plaza Group Management Limited fee structure	
Property Management	3% of gross rents paid.

The Company is party to nine ground leases with TC Land LP, an entity controlled by Michael Zakuta and Earl Brewer and pays annual rent of \$875 thousand under these leases. The business purpose of the leases is to enhance levered returns on the applicable development assets.

Two directors directly or beneficially, through companies they control, hold interests in common with the Company's 25% interest in the Gateway Mall, Sussex, NB property being Earl Brewer (25%) and Michael Zakuta (21.5%). There are no loans outstanding or fees charged by the related parties as a result of the joint ownership.

For the nine months ended September 30, 2009 the Company expensed \$86 thousand (for the year ended December 31, 2008 - \$79 thousand) in related party interest.

25. Segmented Information

The company develops, re-develops and acquires shopping malls, strip plazas and single use properties located in Canada. The company, in measuring performance, does not distinguish or group its operations on a geographical basis. Accordingly the company has a single reportable unit for disclosure purposes under GAAP. One tenant comprises 25.6% of the company's rental revenue.

The following table provides geographic information on the company's rental revenue, net property operating income and total asset base:

26. Contingencies, Commitments, Guarantees, Indemnities and Litigation

a) Contingencies

The Company's bankers have issued letters-of-credit in support of the Company's obligations under certain long-term mortgages to facilitate municipal planning deposit requirements. The facility is secured by Personal Property Security Act (PPSA) charges in each province and matures September 30, 2010. The facility, under which the letters-of-credit are issued, requires that the Company maintain certain financial ratios to comply with the facility. As at September 30, 2009 \$500 thousand (December 31, 2008 - \$500 thousand) of such letters-of-credit were issued and outstanding and the Company was in compliance with the terms of the credit facility.

The \$27.5 million and \$9.6 million development facilities have letters-of-credit limits of \$1.5 million and \$550 thousand, respectively, available for each facility. As at September 30, 2009 \$442 thousand (December 31, 2008 - \$213 thousand) of such letters-of-credit were issued and outstanding under these facilities.

The \$7.3 million operating line-of-credit has \$2.0 million available for use in the form of letters-of-credit. As at September 30, 2009, \$340 thousand (December 31, 2008 - \$534 thousand) of such letters-of-credit were issued and outstanding reducing the available line to \$7.0 million.

b) Commitments

The Company's estimated commitments in respect of certain projects under development and other long-term obligations are:

	Remainder 2009	Year 1 2010	Year 2 2011	Year 3 2012	Year 4 2013	Year 5 2014	After 5 Years	Face Value Total	Carrying Amount Total

(1) Mortgages maturing but secured by bond investments, see note 12.

(2) Operating land leases expire on dates ranging from 2011 to 2070 with renewal options ranging from 10 to 60 years.

c) Guarantees and Indemnities

The Company continues to guarantee certain debt assumed by purchasers in connection with past dispositions of properties. These guarantees will remain until the debt is modified, refinanced or extinguished. These commitments are subject to indemnity agreements. The estimated amount of the debt subject to such guarantees at September 30, 2009 is \$15.1 million (December 31, 2008 – \$15.5 million) and \$8.6 million with a weighted average remaining term of 3.0 years (December 31, 2008 – 3.7 years) and 11.7 years, respectively.

The Company assumed a guarantee for the completion of construction for a development line-of-credit held by the Village Shopping Centre Limited Partnership. As at September 30, 2009 the Village Shopping Centre Limited Partnership has borrowed \$22.3 million of the \$24.0 million line-of-credit. The remaining budgeted development costs are \$3.4 million (December 31, 2008 - \$1.7 million) and the Company's current exposure under their guarantee is estimated to be \$850 thousand (December 31, 2008 – nil).

The mortgage on Lansdowne Place, a former property of the Company, contains cross-default provisions with the mortgages of Nashwaaksis Plaza and Spring Park Plaza. The total outstanding under these two loans is \$3.2 million (December 31, 2008 - \$3.3 million). The Company indemnifies its former co-venturer in respect of the cross-default provisions.

The Company is contingently liable for certain obligations of a co-venturer. The guarantee provided to the mortgagee of Staples-Granby, is subject to a cross-guarantee provided by the other 50% co-owner for the full amount of the loan. As at September 30, 2009 the total exposure on the cross-guarantee is \$701 thousand (December 31, 2008 - \$730 thousand).

d) Litigation

In Management's opinion, any liability that may arise from current or pending litigation would not have a significant adverse effect on these financial statements.

27. Financial Risk Management

In the normal course of its business, the Company is exposed to a number of risks that can affect its operating performance. The Company's board of directors monitors management compliance with the Company's risk management policies through periodic reviews. These risks and the action taken to manage them are as follows:

a) Interest Rate Risk

The Company adopts a policy of holding floating rate debt only for properties under development and those pledged to support the operating line. All other debt is converted to fixed rate debt, when the markets conditions are favorable, as soon as practical after an asset attains income producing status.

The Company has classified its fixed rate financial assets and liabilities as held-to-maturity. Therefore a change in fair market value of these fixed rate instruments at the reporting date would not affect net income. The Company minimizes its exposure to fixed rate interest risk by staggering the maturities in order to avoid excessive amounts of debt maturing in any one year. If market conditions warrant, the Company may attempt to renegotiate its existing debt to take advantage of lower interest rates.

An increase of 100 basis points in interest rates at September 30, 2009 if applied to all outstanding float rate instruments would increase interest expense and decrease pre-tax earnings in the annual amount of \$460 thousand. A change in interest rates at September 30, 2009 would not affect net income with respect to fixed rate instruments. Therefore, no sensitivity analysis is provided for the fixed rate instruments. This calculation is prepared on the same basis as 2008.

b) Credit Risk

Credit risk arises from the possibility that tenants may experience financial difficulty and will be unable to fulfill their lease commitments. The Company mitigates the risk of credit loss by ensuring that its tenant mix is diversified and weighed to national and regional tenants which now comprise 92.8% of our in-place tenant base. This is the Company's primary mitigation procedure for exposure to tenant credit risk. The hypothetical impact to net property operating income of a change in occupancy of 1% would be approximately \$492 thousand per annum. The Company limits loans granted under lease arrangements to high credit rating national tenants and estimates the credit exposure on these loans is nil.

The Company's policy is to provide financial guarantees only to wholly owned subsidiaries and joint venture partners only during the development periods subject to reciprocal indemnities. These guarantees would be limited to the lower of 75% of the asset cost or 65% of the fair market value. See note 26c for details of guarantees.

The Company limits cash transactions to high quality financial institutions to minimize its credit risk from cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Plazacorp Retail Properties Ltd.
Notes to the Interim Consolidated Statements
For the Periods Ended September 30, 2009 (unaudited) and December 31, 2008
(In thousands of Canadian dollars, except per share amounts)

Carrying Amount	September 30, 2009	December 31, 2008
Held-to-maturity investments	\$ 3,925	\$ 4,143
Tenant loans, straight line rent, receivables and note receivables	8,474	7,814
Cash and cash equivalents	1,691	1,720
Total	\$ 14,090	\$ 13,677

The Company's most significant customer, a national retailer, accounts for the \$2.2 million of tenant loans as at September 30, 2009 (December 31, 2008 - \$2.4 million).

c) Liquidity and Debt Market Risk

In the current economic climate and capital market, the lenders may continue to tighten their lending standards which could make it challenging for the Company to obtain financing on favourable terms or any terms at all. The company is exposed to the risk of being unable to honour its financial commitments by the deadlines set out under the terms of such commitments and at a reasonable price. The Company's management manages the Company's cash resources based on the financial forecasts and anticipated cash flows. The maturities of the Company's long term financial liabilities are set out in note 14, 15, 16, 17, and 18.

The Company's liquidity management strategy includes accessing development and operating lines of credit as necessary to fulfill financial commitments. Currently development lines totaling \$46.3 million have been renegotiated with expiries ranging from March 31, 2010 – September 30, 2010. Several mortgages and the development lines contain material adverse change clauses which entitle the lender to demand partial or full loan repayment when there are material adverse changes in the Company's financial position. Management has determined that circumstances that could trigger action by a lender under these clauses are unlikely.

d) Fair Value

Generally, trading values for the Company's financial instruments are not available. In determining estimates of the fair values of the financial instruments, the Company must make assumptions regarding current market rates, considering the term of the instrument and its risk. Current market rates are generally selected from a range of potentially acceptable rates and accordingly, other effective rates and fair values are possible. The rates used in determining the fair value of mortgages are corresponding term Government of Canada Bonds plus credit spreads of 3.50% to 3.90%. The rates used to determine the fair value of mortgage bonds and debentures range from 7.50% and 8.25%. See note 26 for summary of fair values.

The fair value of the Company's financial assets and liabilities that represent net working capital, including cash, receivables, accounts payable and accrued liabilities, bank indebtedness, and notes payable approximate their recorded values due to their short-term nature and limited marketability.

The Company's fair value of the exposure from mortgage guarantees and indemnities are nil (see note 26c).

The estimated fair value of the Company's long-term debt including mortgages payable, mortgage bonds payable, debentures payable, and notes payable is estimated based on the values derived using current interest rates for each related instrument with similar terms and conditions. As at September 30, 2009, the recorded value of the Company's long-term debt exceeds the fair value by \$6.5 million (fair value exceeded recorded value by \$4.0 million at December 31, 2008).

As at September 30, 2009, the fair value of the Company's investment in Government of Canada Bonds of \$4.0 million (\$4.1 million - December 31, 2008) exceeded its recorded value by \$92 thousand (\$154 thousand - December 31, 2008). The Company had no exposure to financial hedges or embedded derivatives as at September 30, 2009.

28. Capital Management

The primary objective of the Company's capital management is to ensure that it maintains adequate capital resources in order to support its business and maximize shareholder value. The Company manages its capital structure with the primary goal of minimizing risk to the stability of cash flow from properties. Other goals include maintaining debt service and interest

(In thousands of Canadian dollars, except per share amounts)

coverage ratios in compliance of bank and debenture covenants. The Company's capital includes mortgages, debentures, mortgage bonds, notes payable and common stock.

Bank operating and development lines require maintenance of at least \$15 million of shareholders equity; maintenance of debt service ratios in excess of 1.45 times to 1.5 times; and interest coverage ratios of 1.65 times, with all debt service ratios calculated exclusive of interest charged on subordinate debt and convertible debentures. In addition, under a development line, the company must maintain a ratio of mortgages plus bank indebtedness to the book value of its gross assets plus accumulated amortization of not more than 70%. The company is in compliance with all debt covenants.

There were no changes to the Company's approach to capital management for the nine months ended September 30, 2009.

The calculation of the total capital is summarized as follows:

Capital	Book Value September 30, 2009	Fair Value September 30, 2009	Book Value December 31, 2008	Fair Value December 31, 2008

29. Subsequent Events

Financing

The Company issued \$12.5 million Series V convertible debentures, convertible into Plazacorp common shares at the option of the holder at \$3.40 per share. The debentures bear interest at 8% per year and mature on October 14, 2014.

Notes Payable

The Company repaid \$3.2 million of notes payable to related parties.

Stock Options and Dividend Reinvestment Plan

Officers and other employees exercised and converted 139 thousand options to 139 thousand shares for \$238 thousand in cash consideration.

244 thousand shares were issued on November 16th, 2009 at a purchase price of \$2.93 per share for a total of \$716 thousand as part of the dividend reinvestment plan.
